Spartan Manufacturing Corporation is dedicated to manufacturing pressure cleaning equipment of the highest quality. Starting with conservative engineering design, and using the best materials and quality parts, Spartan machines are built for performance, reliability, durability, maintainability and long life under the most demanding conditions in heavy duty industrial/commercial applications. With proper maintenance, Spartan machines frequently are still operating with full performance and reliability after 20 to 25 years.

For complete details on warranties please see Spartan Manufacturing Corporation product Limited Warranty, Form 2012-W1A.
